GitHub | LinkedIn | Portfolio

SUMMARY

React Native Developer with 1 year of experience working on 10+ production projects, including mobile applications and web projects across Android, iOS, and web platforms. Skilled in developing scalable, responsive, and high-performance applications and websites using React Native and React. Experienced in REST API integration, real-time features, performance optimization, and delivering projects from development to production.

EXPERIENCE

Silversky Technology
July 2025 – Present

React Native Developer — *Ahmedabad, Gujarat*

- Developed and maintained cross-platform mobile applications using React Native for Android and iOS.
- Contributed to 10+ projects across productivity, education, and social platforms.
- Implemented push notifications and real-time chat using Firebase Cloud Messaging.
- Integrated in-app subscriptions for Play Store and App Store using RevenueCat.
- Participated in publishing and maintaining applications on Google Play Store and Apple App Store.
- Improved application performance through debugging, optimization, and reusable component design.

PROJECTS

MioGo Wellness – *Live on the App Store & Google Play.*

- Built a cross-platform React Native wellness app integrating Apple Health and Google Fit for interval-based health data syncing.
- Developed the UI for a rule-based recommendation engine delivering personalized wellness and supplement insights.
- Implemented the AI wellness coach chat and daily insight screens powered by OpenAI integration.

MindPrint Studio – *Live on the App Store & Google Play.*

- Built a React Native mobile app that scans completed coloring pages via camera and detects QR codes to identify page templates.
- Developed the AI-generated coloring analysis report screens, behavioral insight summaries, and results history.
- Implemented the in-app subscription flow with free trial activation and Google/Apple sign-in.

Tuck — B2B Gift Card Platform (Web App)

- Developed frontend dashboards and employee portal UI.
- Implemented responsive interfaces for browsing and purchasing gift cards.

Ventari SaaS (Web App and Mobile App) – *In development.*

- Built the web application UI in React.js, a multi-tenant SaaS work execution platform serving Administrators, Managers, and Employees.
- Integrated the REST APIs powering core workflows on the web app, including Work Requests, Customers, Calendar, and Team.
- Integrated RevenueCat with Stripe for the platform's subscription billing and checkout flow.

EDUCATION

Silver Oak University
Aug 2023 – Present

BTech in Computer Science & Engineering | 9.20 CGPA

SKILLS

Languages
JavaScript, TypeScript

Frameworks
React Native, React.js

State Management
Redux, Context API, TanStack Query, Redux Toolkit

Mobile Features
Push Notifications, Deep Linking, In-App Subscriptions, Local Storage

Payments
RevenueCat, Stripe, PayPal

Tools
Git, Android Studio, Xcode, Postman

AI Tools
GitHub Copilot, ChatGPT, Cursor AI, Lovable, Claude

APIs & Backend
REST API Integration, Axios, Supabase, Firebase (Auth, Firestore, Cloud Messaging)
